

# Bonniface Woodland Management Plan Summary 2022-2032

Compartment BF1

National  
Trust

**11.87 hectares of mixed  
woodland on the Isle of  
Wight**

# Habitats and Species

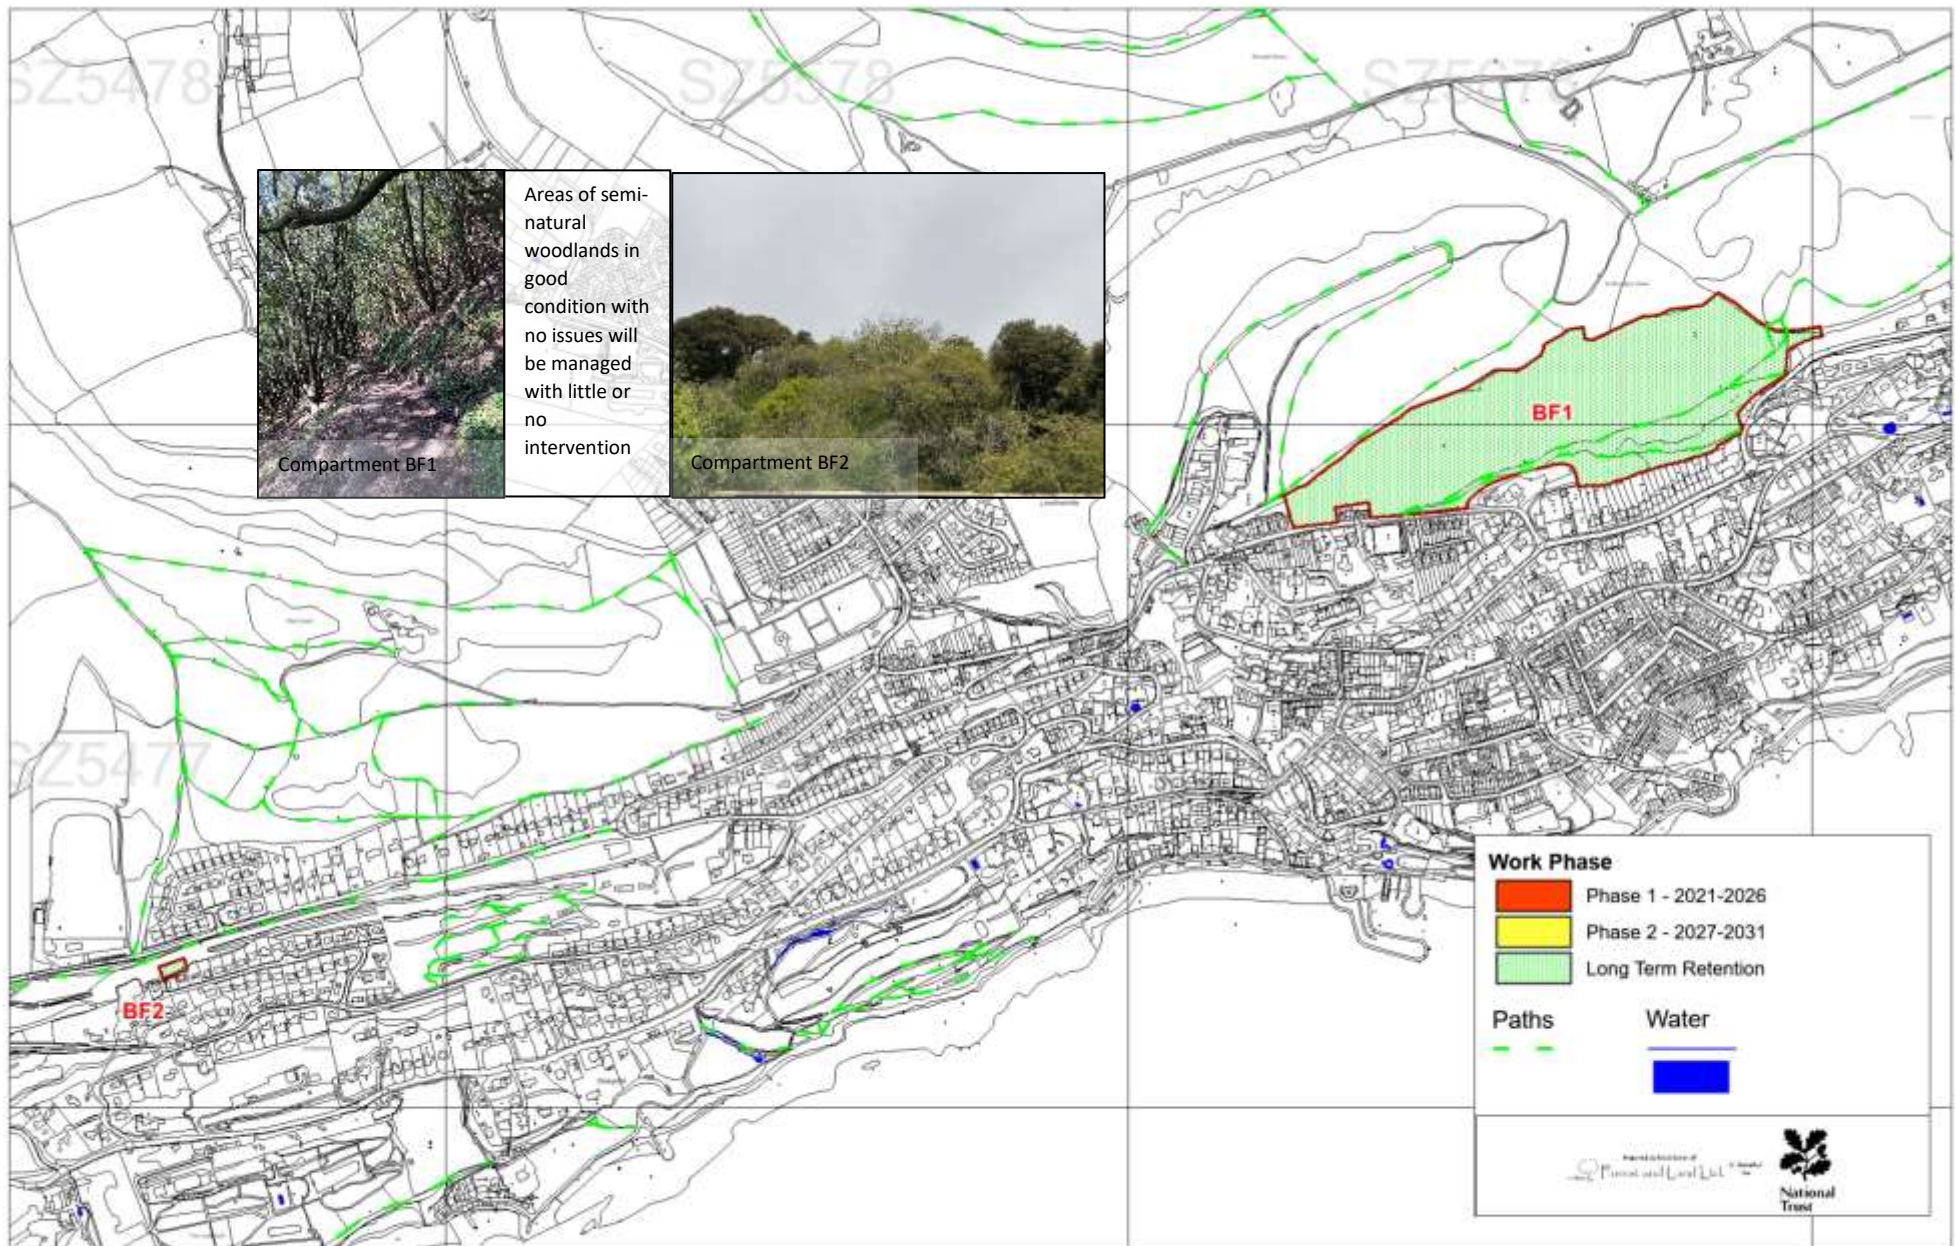

At Bonniface Down, Red Data Book bird's-nest orchid and white Helleborine have been identified.

## Designations

BF1 sits in the Ventnor Downs SSSI, noted for chalk grasslands. The holm oak woodland here is mentioned in Natural England's citation, but it is not identified as a threat to the SSSI special features.

## Management Approaches

These compartments will be managed with the minimum of intervention as the woodlands are already in good condition with no issues.
